Game - Web Browser Platform independent

Internet

Virtual Worlds Simulator Machine

Your city is full of waste from cheap used batteries.

No problem

Collect battery

waste

Rechargeable battery campaign

Research new sugar batteries

Amount of battery waste critical.

Build recycling station

Nobody is collecting battery waste.

Amount of battery waste growing slower but still growing.

> Transform grop farms to sugar farms

Research more efficient sugar batteries

**Batteries too expensive** 

and have small capacity.

Citizens are hungry.

Research failed. Try another research.
